

AMERICAN PRODUCTS QUANTITY MOLDING PROGRAM

American Products and the Advantage Line are now offering a variety of stock moldings to our valued customers.

Our moldings are solid wood and wood veneer construction and come in 8-foot lengths, available in oak, maple, cherry, hickory and paint grade. We will color match them to your required cabinet line, then provide them to you in carton quantities. We will also provide you with a lead-time that is typically two weeks and the best customer service that we know how.

Pricing for the molding program is for carton quantities only. (*with the exception of items that have a carton quantity of 1, you must order a minimum of 5 cartons*) The quantities for each carton are listed in the bulleted section for each specific molding. Prices shown are per piece within that carton.

Looking for something not shown here? Please feel free to call or fax us with your specifications and allow **American Products** to give you a quote!

Competitive pricing, high quality and reasonable lead times are what we stand for!

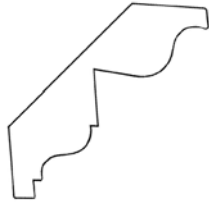

AMERICAN PRODUCTS QUANTITY MOLDING PROGRAM
